

S Tree Clinical Psychology Clinic
Private psychological services, Chiang Mai, THAILAND

Informed Consent to Treatment

S Tree Clinical Psychology Clinic’s private counseling and psychotherapy are conducted by Thai licensed clinical psychologists. The services may include individual, couple, and group talking therapy, in order to investigate and alleviate the problems in the areas of emotion, thought, behavior, personality, psychopathology, conduct, relationship, and another factor affecting problematic living situations both of the clients themselves and the others. The services may not solely base upon single approach but eclectic approach, aiming for suitable treatment plan and effective outcomes, which should match the clients’ characters and personality styles. No service shall proceed without discussion. The clients have a right to refuse or discontinue the services at any times; however, the client has the responsibility to inform their therapist in advance for such decision.

S Tree Clinical Psychology Clinic’s psychotherapists value scientific and professional principles in the use of their clinical experiences. They highly respect the clients’ privacy and confidentiality. Clients’ information will not be revealed to the third parties without written authorization and professional judgment. However, in case of risk of imminent danger to the client or others, the therapists are ethically bound to take necessary steps to prevent such danger.

In case that a client’s requests are not involved in therapeutic expectation, the S Tree Clinical Psychology Clinic’s therapists and staffs have the right to refuse or report to the legal authority if necessary.

As signed, the client has read, understood, and agreed to the information and all conditions above.
